

RAJEEV KUMAR JOSHI

Senior React Native Developer | Mobile Engineer | Android & iOS

Bengaluru, India | +91 8792169096 | rajeevjoshi91@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior React Native Developer with **9 years** of hands-on experience building, shipping, and maintaining cross-platform **Android and iOS** applications across **fintech, travel, and consumer** products. Started career as a **native Android developer (Java)** and transitioned into **React Native**, owning end-to-end mobile delivery as an individual contributor — architecture, feature development, authentication, payments, analytics, crash monitoring, deep linking, push notifications, native modules, CI/CD, and Play Store / App Store releases. Comfortable taking a React Native application from greenfield setup to production, debugging real-world issues, and partnering closely with product, design, and backend teams to ship reliable mobile experiences.

TECHNICAL SKILLS

Mobile Development:	React Native, Expo, TypeScript, JavaScript, React Navigation, Redux Toolkit, React Query
Native Android Experience:	Java, Android SDK, Activities & Fragments, REST API integration, Play Store release management
Platform & Integrations:	Android & iOS builds, Xcode, Android Studio, deep linking, push notifications, permissions, native module integration
Backend & Cloud Services:	Firebase, Auth0, AWS Cognito, Branch, Sentry, PostHog
Payments & Security:	Cashfree, Razorpay, secure authentication workflows
Release Engineering:	Play Store & App Store releases, CI/CD pipelines, crash monitoring, hotfix workflows
Engineering Productivity:	Modern debugging, refactoring, code review, and development productivity workflows

PROFESSIONAL EXPERIENCE

Senior Android Developer

LetsVenture Technologies Private Limited | Bengaluru

Sep 2019 - Feb 2026

Products: LVX, LVXQ, Scalix | Domain: Fintech, Private Markets & Founder Tooling

- Joined as an Android Developer; transitioned into React Native within the first year and worked primarily as a Senior React Native Developer for the remainder of the tenure, owning cross-platform Android & iOS delivery as an individual contributor.
- Owned end-to-end mobile delivery for investor-facing fintech products (LVX, LVXQ) and Scalix for LetsVenture — feature design, implementation, code reviews, releases, and post-release stability.
- Built and maintained authentication flows (Auth0, AWS Cognito), payment integrations (Razorpay, Cashfree), analytics (PostHog), crash monitoring (Sentry), deep linking (Branch), and push notifications (Firebase).
- Managed Play Store and App Store release cycles end-to-end — versioning, signing, store submissions, hotfix workflows, and CI/CD pipelines for predictable production deployments.
- Worked closely with backend, product, and design teams; contributed to mobile architecture, navigation, and state-management patterns using Redux Toolkit and React Query.

Software Engineer

WildTrails Technology Private Limited | Bengaluru

Mar 2018 - Sep 2019

Products: WildTrails App, Wildlife LiveUpdates

- Built Android application features for wildlife discovery, trip planning, and media-rich user experiences.
- Integrated REST APIs and optimised application performance for low-network safari and remote-field environments.
- Contributed to mobile stability improvements and user experience enhancements.

Junior Android Developer

Dunst Technologies Pvt Ltd | Bengaluru

Dec 2017 - Mar 2018

Projects: Wanderlust & SIFF

- Developed Android application features for VR travel experiences, multimedia content delivery, event schedules, and ticket-related workflows.
- Worked on performance optimisation and feature implementation for consumer-facing mobile applications.

Junior R&D Engineer

PLUREBUS TECHNOLOGIES PRIVATE LIMITED | Bengaluru

Sep 2016 - Sep 2017

Project: Plurebus Android App

- Built Android features and API integrations for an entertainment platform similar to BookMyShow, focused on discovery and booking experiences for movies, theatre, drama, and live shows.
- Worked on rich, media-driven user experiences, listings, schedules, and booking-related workflows, contributing to feature development and overall application enhancements.

FEATURED PROJECTS

LVX & LVXQ — LetsVenture

Investor-facing fintech platforms supporting portfolio tracking, secure authentication, payments, analytics, and release management.

Scalix by LetsVenture

“Startup in a box” platform for founders — fundraising, service-provider marketplace, beta customers, business opportunities, business-tool discovery, and perks & discounts — with mobile workflows on Android & iOS.

WildTrails

Android mobile application for wildlife discovery, trip planning, and low-network media workflows.

Wanderlust & SIFF

Android applications for VR travel experiences and film-festival schedules with multimedia and ticketing capabilities.
